# ERRATUM

In the article entitled "Samuel Hearne's Track: Some Obscurities Clarified," by W.A. Fuller, which was published in the September 1999 issue (52(3):257-271), a date given in the article is incorrect. The second sentence of the second paragraph on p. 266 should read:

"He does not say when they left White Stone Lake, but his silence is taken to mean that they left on 26 August, after the six days of hunting, and that they walked southwesterly for the next eight days."
